The Story Behind Retros

During the most turbulent financial crisis since the 1920's - 2008 Riverside RV Inc. had its beginnings in a backyard shed on US 20, close to LaGrange Indiana, Riverside RV began building trailers. Since the location is in the middle of Amish country, it has an Amish driven workmanship with a high percentage of Amish employed in production. While we all like to think nostalgia at the "good old days", we do prefer modern conveniences that we are accustomed to using daily. How can we combine the two? Retro! The look of yesterday with the modern conveniences of today.

In 2012, Riverside was busting at the seams, desperately needing more space as it continued to grow, the business was relocated to east of Lagrange. Growth took Riverside from 50'x125' to a 150,000 sq. ft building.

Our Quality

Riverside RV manufactures the highest quality Recreational Vehicles in all of Northern Indiana. Known for building the most nostalgic brand of travel trailers, the Retro, in the RV industry, Riverside RV is proud to stand with all of our dealer partners, while providing them with the highest quality trailer in the industry.

We take quality seriously.

This means that each and every unit is closely inspected - Inside and out, in production and after completion. We want you to have confidence in our products, and that's why we invest time and effort into this important inspection process.

You deserve a tightly built unit that withstands punishing rains and other harsh conditions. Our recreational vehicles undergo a re-inspection in our PDI/Rain Bay to ensure each unit is free from leaks and other issues. The result is an RV designed for your maximum enjoyment.
